

Over 14 years Hand in Hand Trust has proved that children who have enjoyed their early years

in our nurseries:-

Are socially capable.

Have an interest in learning.

Take part in extra-school curriculum.

Are interested in their self development.

Understand the needs of their younger siblings.

Eat more healthily.

Have ambitions for the future.

Kids Awake !!!

**A new initiative from
Hand in Hand Trust
1062505**

I want to play, I want to be strong,
I want someone with me all day long.
I don't want to sit without any toys,
I want to laugh and make a noise.

Hand in Hand Children's Song.

Mano a Mano,
Mano a Mano,
Tu mano en mi mano,
Hermanos seremos.

*Hand in Hand,
Hand in Hand,
Brothers and Sisters we will be
With your hand in mine.*

From Rubi's mother
My daughter is 3 and I am so happy that you are helping the children in our community. On the day of the Christmas party I asked my boss for leave to go because my daughter was going to dance. When I saw her I couldn't believe that such a little girl could dance like that and I cried with emotion and I realise that it is you who has made all this for our children. The children are no longer timid or shy.

Levane,
I had to take my baby to work with me. I washed dishes in a restaurant. She had to sit on a chair all day and she got bored and cried and so I lost my job. From the community kitchen I had one bowl of spaghetti between us, so I was desperate. I went to Hand in Hand nursery and now my little girl has 3 lovely meals every day and she plays and sings and is very happy. And I now go to work at a different restaurant.

Doris,
Andres is 4 and he only spent one year at the nursery. I am very happy because he can write his name and count to 100 and many other things. At his primary school the head said he was very well stimulated and eager to learn. Andres wants to go to university. I will work very hard to get money for him.
